NATURE SPARES

The Stricken Rose From Grief.

What a fortunate provision of nature it is, that deprives the rose of mental suffering; for how poignant would be its grief to discover, in the height of its blooming glory, that a canker fed at its heart, and that its beauty and fragrance were doomed forever. Nature always spares the suffering; she is a veritable storehouse of pleasing rewards, for those who seek her aid. In the years gone by falling hair and grayness have cast a gloom over the lives of thousands of young women, but thanks to the investigations of scientists the true cause of hair destruction is now known to be a germ or parasite that burrows into the hair follicles. Newbro's Herpicide absolutely destroys this germ, thus permitting the hair to grow as nature intended. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

THE GOLD NUGGET MINING CO.

Pritchard and Jones have for sale ten thousand shares of the development stock of the Gold Nugget Mining Company, each share carrying one and a half share premium. They sell this stock in blocks of twenty shares and upward. Premium remains in escrow in the bank until July 23, 1904. Arrangements for payments on this stock can also be made satisfactory to purchaser. The money from the sale of this block of development stock is to be applied to purchase a stamp mill. Average value of the ores in this mine is from \$15 to \$25 per ton. The rich chute yields ore that assays from \$140 to \$260 per ton—and this is cut by the lower tunnel on the vein 550 feet below the "apex." Estimates are made that these two tunnels have blocked out 9000 tons of ore ready to be stoped out, the aggregate value of which is \$135,000, and this is but one tenth of what is practically measureable in these two claims.
